About Me,

I used to be an ordinary person from Bihar. Due to my father's job in Hindustan Motors Ltd., we came to West Bengal. After graduation I started teaching in a local school and simultaneously started a small business in finance sector.

In the year 2011, I was suffering from a chronic illness. I had given up all my hope as the doctors couldn't help me. Due to my illness, I was not being able to work and my income started declining. During that crisis one of my client introduced me to Forever Living Products. He gave me a supplement of the company and asked me to use it regularly. That did a miracle to my health. My doctor was surprised to see the results and asked me to continue to use the supplement.

As I felt the benefit of the product, I decided to turn it into a business. I joined Forever Living Products and became a business and life coach. I started spreading the benefits of the product, that cured me and gave my life back. I started working with 100s of people around India.

On 5th November, 2011, I became a Manager, and since then I have been awarded with the titles like, Senior Eagle Manager retreat Mexico, global rally for Dubai, Millionaire Club Member and Manager Retreat (for 5 times).

Since the year 2011, I have already mentored more than 1,200 people and have generated Rs.1.5 Cr value.

I want you to join me in my journey of success, like all my other mentees.
